PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience developing enterprise web applications and international e-commerce platforms. Strong expertise in React and TypeScript, with a focus on scalable architectures and code quality. Proven ability to work on complex systems, contribute to technical decisions, and collaborate effectively across teams and stakeholders.

Driven by problem-solving, continuous improvement, and building robust, maintainable frontend solutions.

LANGUAGE SKILLS

Italian – Native

English – Advanced
(Professional working proficiency)

Spanish – Intermediate

Edoardo Genovese

FRONTEND ENGINEER REACT & TYPESCRIPT SPECIALIST

WORK EXPERIENCE

Emea | 09/2025-03/2026 | Hybrid

Involved in the development of a nationally relevant government management platform.

- Develop and maintain complex frontend features using React and TypeScript
- Manage global application state using Zustand
- Handle asynchronous data fetching and caching with TanStack Query
- Design scalable frontend architecture for complex enterprise applications
- Collaborate closely with frontend engineers to design UI solutions (no dedicated designer)
- Ensure accessibility best practices and usability across all developed interfaces
- Optimize application performance using tools such as Lighthouse
- Work within a structured Agile environment

Softwave | 09/2023-08/2025 | Full remote

Experience working in international distributed teams with daily use of English.

- Developed scalable web applications using React and TypeScript
- Built enterprise-level e-commerce platforms with Angular
- Designed reusable and modular components using Storybook
- Led frontend tasks independently and communicated directly with clients
- Improved frontend performance and maintainability through modular architecture
- Implemented accessibility best practices and usability improvements
- Worked within CI/CD pipelines and Git-based workflows
- Collaborated in distributed Agile/Scrum teams

TECHNICAL STACK

Frontend

- React
- TypeScript
- JavaScript (ES6+)
- Angular (enterprise experience)
- Next.js

State Management & Data

- Zustand
- Redux
- TanStack Query
- REST APIs
- GraphQL

UI & Design

- HTML5
- CSS3 / SCSS
- Tailwind CSS
- Storybook

Performance & Quality

- Lighthouse
- Cypress
- Playwright
- Vitest

Dev Tools

- Git
- CI/CD pipelines
- Docker (basic usage)

ARCHITECTURE & DEVELOPMENT PRACTICE

- Modular Frontend Architecture
- Component-based Design
- Scalable Frontend Systems
- Accessibility Best Practices (WCAG principles)
- Performance Optimization
- Mobile-First Responsive Design

Syscons Interactive | 09/2022-08/2023 | Full remote

Contributed to the development of enterprise e-commerce platforms.

- Developed new features using React, TypeScript and Next.js
- Built GraphQL APIs using Node.js and Express
- Implemented end-to-end testing with Cypress and Playwright
- Optimized PostgreSQL queries and database structure
- Improved frontend performance and user experience
- Worked across both frontend and backend layers

EDUCATION AND TRAINING

Istituto "Bonifacio VIII", Anagni

Italian Scientific High School Diploma
(International Programme)
2015 - 2020

Epicode School

Full-Stack Developer Program
01/2022 - 04/2022

Commercetools

Front-end Certificate
04/2023 - 05/2023
